

of the Art

Audio Research builds upon a legacy to set new standards for music reproduction.

Audio Research has been in the business of establishing audio benchmarks for nearly two decades. Some audiophiles and critics might even take Audio Research a little for granted. But when they listen to our new SP15 hybrid preamplifier and Classic 150 hybrid monaural power amplifiers, some ears are going to perk up and some eyes are going to widen.

Because the SP15 and the Classic 150 redefine the audio art, yet remain

especially user-friendly. Separately, they can help any system achieve a transparently higher level of resolution—in dynamics, in soundstage, in timbral accuracy. Together—with a synergy that almost defies description—they create a whole new level of audio performance.

From the legacy of the SP11 and M300 come the SP15 preamplifier and the Classic 150 monaural power amplifiers. Audition them today at your Audio Research dealer.

20
classic years
