IW 807

The IW 807 is a feature-packed, 2-way closed speaker that features a 1-inch DTT decoupled tweeter to deliver remarkably accurate sound, a 7-inch woofer unit that uses Hard Conical Cone, and Center-plug technology. Furthermore it comes with an Active Impedance Correction system, which neutralizes the magnetic field around the pole piece, to reduce distortion by up to 50%.

The IW 807 is equipped with a white paintable grille. Although it's nearly invisible, this is one in-wall speaker with big sound—which is the first thing you notice when you hear it. The IW 807 is characterized by its genuinely authentic acoustics and always conveys highly detailed and beautifully resonant sound across the entire frequency spectrum.
